DETAILED ACTION

This is the sixth office action for U.S. Application 10/802,408 for a Configurable Mounting Bracket filed by Jeffrey Carnevali on March 17, 2004. Claims 1, 3-20, 22-24, and 27 are pending.

Claim Objections

Claims 18-24 are objected to because of the following informalities: In line 3 of claim 18, after the word "fixed", the word "and" should be deleted. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 23 and 24 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claims 23 and 24 recite the limitation "permanently bendable" in line 2. There is insufficient antecedent basis for this limitation in the claim.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 3632

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 3, 4, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by U.S. Patent 6,540,184 to Thaxton. Thaxton discloses a mounting bracket comprising a plurality of support rods (42) of substantially fixed length consisting of a solitary member formed of a uniformly continuous solid permanently bendable rod of unitary construction having a substantially constant and uniform cross-section extended uniformly between opposing first and second end portions and being substantially independently permanently bendable in three dimensions along substantially an entire length thereof between the first and second end portions. There is a means for clamping (36) the first end portions of the plurality of support rods in a fixed arrangement and a means for securing (62) the second end portions of the plurality of support rods relative to an external surface. The securing means further comprises means for permanently securing the second end portion of a first one of the rods relative to an external surface, the securing means further comprising means for resisting slipping of the second end portion of a different second one of the plurality of support rods relative to an external surface. There is also a flexible sheath (60) substantially covering each of the permanently bendable support rods.

Allowable Subject Matter

Claims 9-20, 22 and 27 are allowed. Claims 5-7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in

Art Unit: 3632

independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments with respect to claims 1, 3-20, 22-24, and 27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
